ONTARIO GOVERNMENT NOTICE

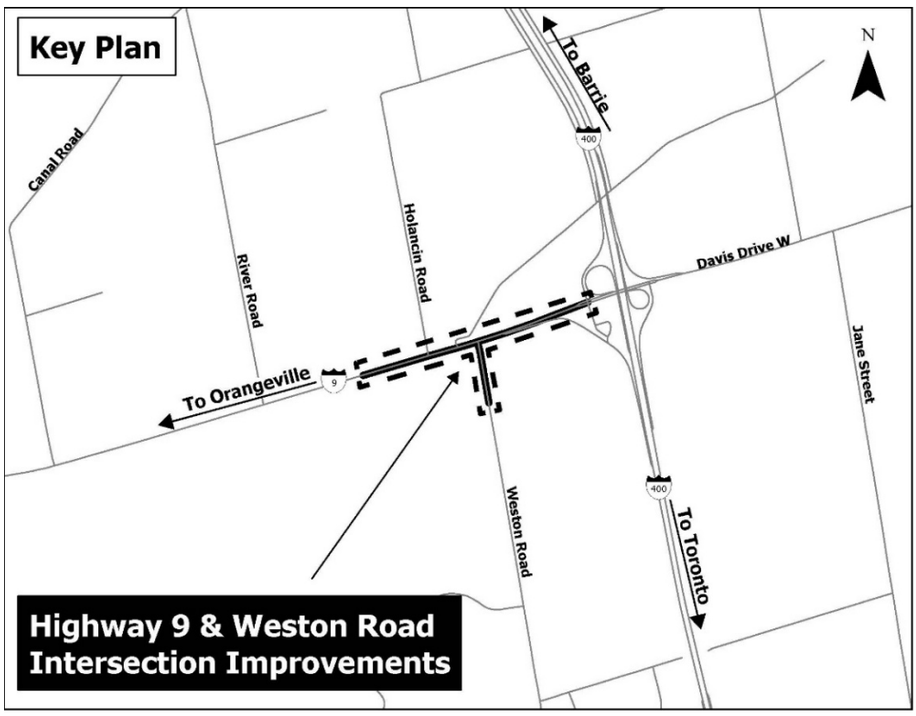

HIGHWAY 9 & WESTON ROAD INTERSECTION SIGNALIZATION (GWP 2103-25-00)

DETAIL DESIGN AND CLASS ENVIRONMENTAL ASSESSMENT STUDY

The Project

The Ontario Ministry of Transportation (MTO) Central Region has retained Parsons Inc. (Parsons) to complete detail design, prepare construction documents, and provide support during construction for a new signalized intersection at Highway 9 and Weston Road in the Township of King, Regional Municipality of York.

The Project area extends approximately 650 m east and west of the intersection along Highway 9, and approximately 350 m south of the intersection along Weston Road.

The Project includes a new traffic signal at Highway 9 and Weston Road, and related road and drainage improvements. Proposed work includes pavement widening, adding dedicated turn lanes on Weston Road, traffic signal installation, lighting modifications, drainage and culvert work, utility coordination, traffic management during construction, and other related improvements.

The Process

The Project is following the formal planning and review process of a Group 'C' project under the 2024 MTO *Class Environmental Assessment (EA) for Provincial Transportation Facilities and Municipal Expressways.*

A Transportation Environmental Study Report (TESR) will be prepared to document the Project scope, EA process, existing conditions, alternatives considered, preferred design, potential environmental effects, steps to reduce impacts, Project commitments, and consultation activities. The TESR will be available for a 30-day public review and comment period. A future notice will be issued when the report is available.

A public meeting is not planned for the Project. Consultation will take place through direct notification and targeted outreach to agencies, municipalities, utility companies, nearby property owners, stakeholders, and other interested parties, as appropriate. Project notices and updates will be posted on the project website at **www.hwy9weston.ca**, including at Project start, major design milestones, and completion of the TESR.

Comments

To obtain additional information, provide comments, or be added to the Project mailing list, please visit the project website at **www.hwy9weston.ca**, or contact the Project Team at **info@hwy9weston.ca** or as follows:
